

PRODUCT	DESCRIPTION	INFORMATION	PACK SIZES
Release Agents – Waxes and Film Forming			
PVA Release (Red)	Poly vinyl Alcohol Release Agent	Film forming Polyvinyl Alcohol based release agent (Water Soluble)	1 -23 litre
Ramwax Run-in	Wax Blend Release system for GRP	Carnuba, Micro and Paraffin wax blend release wax (Contains Silicones)	400ml or 5 litre
Ramwax Silicone	Wax and Silicone Blended Release for GRP	Carnuba wax and Silicone blend for multiple releases	400ml or 5 litre
Release Agents – Semi Permanent Release systems			
Marbocote Cleaner	Marbocote Mould cleaner	Blend of solvent to facilitate effective mould cleaning	1-20 Litres
Marbocote Sealer	Marbocote Mould Sealer	Seals micro porosity on all mould surfaces before application of mould release	1 Litre
Marbocote Fastcote	Marbocote Fastcote Mould Release	Wipe-on semi-permanent release GRP systems. Formulated for UPR/VE/EP. No additional polishing required.	1 Litre
Marbocote 227CEE	Marbocote 227 CEE Mould release	General Purpose Semi-permanent mould release. Generally used for none gelcoated parts. Will release most substrates except Isocyanate based polymers and Silicones.	1 Litre
Marbocote W130	Marbocote W130 Roto-Moulding Release Agent	Environmentally safe, water based release system specifically formulated for Roto-moulding. May also be used for fibre reinforced composites (EP/UPR/Phenolic).	1-20 Litres
Marbocote HP3181Black	Marbocote HP3181 Black porous substrate plug/tool sealer	Special high solids one component moisture cure system for sealing of porous plug/mould substrates to a high gloss finish (suitable for EP/PU tooling board or MDF)	1 Litre
Marbocote 3800	Marbocote 3800 Wax paste, flange protection system	Excellent film forming wax and organic solvent based release for poor mould surfaces and difficult to release areas and flanges where semi permanent release is not required or not cost effective	1-20 Litres
